I am a passionate UX/UI designer eager to bring my skills in user research, wireframing, and user-centred design to a dynamic team. With a strong foundation in creating intuitive and visually appealing interfaces, I am looking for an opportunity to contribute to impactful projects that enhance user experiences. I'm committed to continuously learning, embracing new challenges, and collaborating with cross-functional teams to develop innovative design solutions.

EXPERIENCE

SmartShelf - Prepr program project   **August 2024**
UX/UI Design
- Collaborated with a team to create a customizable inventory management solution for grocery stores and restaurants.
- Conducted user research, developed personas, and designed wireframes and final UI designs.
- Created mobile and desktop interfaces, ensuring an intuitive user experience.
